

May Experience Subcommittee Meeting
December 7, 2007
Minutes

Present: Armstrong, Batson (Recorder), Bressler, Cass, Gabbert, Haney, Lacey

1. The minutes from the November 14, 2007 meeting were approved.
2. The committee reviewed reactions from members of ITF Steering to our questions for the Course Proposal System and our recent recommendations (both presented to Steering on November 26, 2007).
3. The committee discussed the impending meeting of several administrators, committee chairs, et al. who will address issues related to the May Experience and some of the recommendations we previously submitted to Steering. The committee agreed that it is most important to publish our questions for the Course Proposal System so that faculty can begin to develop their ideas for May courses.
4. The committee agreed that our Winter Term meetings should focus on the development of a forum to describe our vision of the May Experience. We also will develop a Frequently-Asked-Questions document.
