“What Teachers are Saying…”

Robyn Jackson

September 12, 2012

“What a great day with Robyn Jackson! It was fantastic! What a packed house! Teachers are clamoring for assistance with the Common Core and this fit perfectly!”

“I thoroughly enjoyed her presentation. She was concise and focused and knowledgeable about her subject matter.”

“Robyn Jackson is one of the most skilled presenters I have seen. She broke down something that is overwhelming (CCS) and showed it within the framework of challenging students to think independently (rigor). The way she broke down the process of how to plan with CCS was enormously helpful. I now have a process to take back to my school and use with teachers. Thank you!”

“Understanding the Expectations of the Math Common Core Standards”

“Best presentation on Common Core that I have heard... She made the connections between K-5 to 12th grade that others have failed to make!”

“Sandra Goff is obviously a ‘teacher’ talking to teachers. She has been and probably continues in the trenches. She used examples from all three levels (K-5, 6-9 and high school). The information she shared was very helpful. Thank you to all who work so hard to bring this kind of quality information to those of us who need it.”

“Sandra Goff was amazing. She was a wonderful presenter and her activities and illustrations were so meaningful. I immediately left the presentation and walked into my classroom with ideas and strategies to share with my students and colleagues.”

“Linking Comprehension Instruction to the Common Core Standards”

“Stephanie Harvey did a fabulous job. I was very impressed by not only her professionalism, but her ability to connect with the teachers in the room. Thank you for bringing her to Furman.”

“As a second year graduate student, I found Mrs. Harvey's seminar extremely helpful. I learned so much that I can take into the classroom when I start next fall. She was incredible!”

“It synthesized Common Core for me! I loved it and will share the information with my school. Thank you for getting Stephanie to come and share her wealth of knowledge. I thoroughly enjoyed it!”

“Stephanie Harvey was a wonderful, resourceful presenter! It was nice to receive some helpful strategies for what we can do next to prepare for CCSS as well as be affirmed in what we are already doing!”

“Unpacking the Common Core Standards for Writing”

“I really enjoyed her presentation. I've been working as a literacy coach/interventionist for many years, and for most teachers I've worked with, they'd say that writing is one of the hardest elements to teach. Ruth did a great job of combining the CCSS, traits writing and writing workshop.”

“This was one of the most beneficial seminars that I have attended. The information was exactly what I needed to understand the Common Core Writing standards and how best to unpack and teach them.”

“Wow! She was great! The session was well planned out and informative. No one walked away without taking something back to their classrooms. That's the BEST kind of professional development for educators.”

“It was very insightful and has given me a new direction in my instruction in writing in the future. Thanks!”
