Welcome to the Osher Lifelong Learning Institute at Furman (OLLI @ Furman)

As I write this, we are busy at my house preparing our son for his freshman year of college. He's excited, and I am excited for him, but also I worry. Will he keep up with assignments when I'm not there to remind him? Will he wake up and go to class every day? Will the classes be too hard? Will he eat his vegetables? Will he ever wash his sheets?

Fortunately, we have none of those back-to-school worries at the Osher Lifelong Learning Institute at Furman. Here, you can try a new course with no thought given to homework or papers or tests. While we hope you'll come to all of your classes, we don't take the roll, giving you the freedom to miss a class when something more important comes along. And you are in classrooms full of like-minded people who, just like you, are taking courses simply for the joy of learning.

Flip through the following pages. You'll find 100 courses and 43 Friday bonus events to pique your interest. Round out your OLLI calendar with a social event or Special Interest Group. Perhaps you'll find a way to volunteer within the program. Watch our weekly OLLI Notes for special events that come up from time to time. And pretty soon, you'll find that participating in our community of learners is one of the best decisions you've ever made.

Mark your calendars for the Back to OLLI reception on Thursday, September 8, 3–4:30 p.m. New members are invited to an Orientation the same day at 2:30 p.m. I hope you've had a great summer. It's been quiet around the office, and we can't wait to see everyone!

Get involved in our community of learners

OLLI @ Furman thrives on member involvement and is led by a volunteer council, elected by the membership under bylaws adopted by the members. We encourage everyone to be a part of the OLLI community by volunteering in some capacity within the program. Full participation can give you a sense of ownership while you have fun meeting new friends.

Administration and Finance Committee decides on the length of terms, membership fees, expenditure of endowment funds, etc. Generally meets once a term.

Class Liaisons act as a bridge between the instructor, students, and the office staff in a class in which they are currently enrolled. Give weekly updates from OLLI Notes and general assistance to instructor.

Curriculum Committee seeks competent instructors to teach a well-balanced variety of classes. Subcommittees are based on interest areas from history to art to hobbies. Usually meets three times a term to plan the courses for the following term.

Instructor Support Committee supports our incredible faculty through mentors, evaluations, and training sessions. Meets a couple of times each term.

Gray Matters is produced four times a year and includes articles and information from the membership and committees. Writers, photographers, and editors are always needed!

Instructors are all volunteers with a love of learning and sharing their ideas and life lessons.

Long-Range Planning Committee considers the needs and goals for three, five, and ten years into the future. Meets about once per term.

Office Assistants greet people while getting to know a lot about the program and how it works, from phone calls and registrations to battery replacements and shelving books. Can work around your schedule.

Social Committee plans our fun times together outside the classroom and is made up of a few who coordinate the many members. Hosts events all year long.

Volunteer Committee strives to have 100% of the membership involved in some capacity with helping make OLLI run. Meets a couple of times each term.

For more information, contact Heidi Wright at heidi.wright@furman.edu or 864.294.2997. You can also indicate your interest on your registration form.

Special Interest Groups

A Special Interest Group (SIG) is a group of OLLI members whose focus is a certain area of interest and social interaction. The following SIGs are already in place, and new SIGs are encouraged to form at any time. You do not need to register for SIGs, and there is no fee; however, you must be an OLLI member to participate. For more information about each group, get in touch with the contact person listed. Information about starting a new SIG is available in the OLLI Office and on the OLLI website. Questions? Contact Heidi Wright at heidi.wright@furman.edu or 864.294.2997.

3D Design & Printing

The primary goal of this SIG is to promote STEAM (Science, Technology, Engineering, Art and Math) programs in local schools through 3D Design and Printing, and other technologies. The group's most popular program is to teach school children to fabricate simple prosthetic hands for other children born with a hand- or hand-arm anomaly, or who lost a hand due to accident or war. In addition, the SIG helps students to learn 3D Design and to 3D print and fly quadcopter drones. To learn more, see our website at www.STEAMTechTeams.com. All are welcome. You do not have to be technically oriented to participate in this extraordinary project! Contact Reid Becker at Reid.Becker@gmail.com.

Big Questions SIG

The BIG QUESTIONS group is for anyone with an interest in talking, listening, and thinking carefully about fundamental issues. For example, we opened with consideration of the question: Is God real or a delusion? We may continue with questions like: What is the meaning of life (and how do we recognize it)?

Which is more fundamental, the individual or the community? Is reason co-extensive with science? The group as a whole decides what to discuss. Genuine interest in ideas is the only requirement of membership. We meet weekly. Contact: Kevin McMurtrey at kevinmcmurtrey@gmail.com.

Bridge

The Bridge Group is for players with some experience. They meet weekly in Manly Lobby at the Herring Center. More groups may form if there is enough interest. Contact Greg Parker at greglois.parker@gmail.com.

Chess

This group is for all OLLI members who are interested in playing chess. Beginners and experienced players are welcome. Contact Jan Blasenak at blaz49@aol.com.

Classic Cars

The Special Interest Group offers classic car enthusiasts of OLLI a way to share information, resources and the enjoyment of classic automobiles. Activities include day trips and visits to collectors and restorers. Contact Wayne Halli at whalli@bellsouth.net.

French

Êtes-vous Francophone? Vous êtes invité à un SIG où on parlera français. On peut pratiquer la belle langue, et on peut faire la connaissance d'autres qui parle français. The French Conversation SIG welcomes all French proficiency levels. Contact Ann Briskey at twinkbrisk@gmail.com.

Mah Jongg

The Mah Jongg SIG is for experienced players who would like to get together weekly to play Mah Jongg. They also welcome those who have recently taken a Mah Jongg class or who are trying to brush up on some "rusty" skills. They currently meet at 1:30 p.m. on Wednesdays in Manly Lobby at the Herring Center. Contact Barb Rusch at rbrusch@bellsouth.net or Cathy Dwyer at cathd65@aol.com.

OLLI Consort

The OLLI Consort offers those who play recorder the opportunity to enjoy the pleasures of ensemble playing, advance their skills, and occasionally perform for others. They meet at the Herring Center and the schedule is set each term by the participants. Contact Sharon Howell at JasminRC@icloud.com or Judy Brooks at hykrz@bellsouth.net.

Out and About Singles

This is a group of single OLLI members who enjoy movies, plays, festivals and eating out together. Come and join us, make new friends, and help plan a calendar of fun. There is a lot to do in Greenville! Contact Susan Cooper at scooper7284@charter.net or Carolyn Rice at smc66pa12@gmail.com.

Pickleball

The Pickleball SIG is for those who already play or are interested in learning this novel game which is a hybrid of badminton, tennis and ping pong. It's a hit with seniors all over the country. Contact Kathleen Abbate at mstish1325@gmail.com.

Photography

The Photography Special Interest Group is for those photographers interested in day trips to photograph nature, landscapes, historical sites, and other interesting venues.

Most shooting trips will start at the Herring Center parking lot. The group sets its calendar as events arise. Contact Jeff Sarvis at JGSarvis@gmail.com or Ray Roback at rayrobac@gmail.com to have your name and email address put on the notification list.

Spanish

All levels of Spanish skill are welcome to join the Spanish Conversation SIG. The group meets at 10:45 on Thursdays in the Vick Conference Room (HC102) to practice conversing. In order to keep the conversation flowing, members are encouraged to bring news to share with the group such as details of a class they are taking, a picture about which they would like to expound, or a current topic in the news they would like to discuss. Contact Merikay Pirrone at thepirrones@bellsouth.net.

Swamp Rabbit Knitters

Bring your knitting or other handwork and join this group for knitting and conversation. The group decides meeting times and locations each term. Contact Gail Kirby with at cozybags@yahoo.com.

*Monday, 10:45 a.m.–12:15 p.m.,
Herring Center, Piper (HC111)*

Would Jesus be considered an ethical person today if we really pay attention to what he allegedly taught? During the last part of the 20th century and now into the first decades of the 21st, the American religious landscape has seen a renewed emphasis on the ethics of Jesus. Conservative Christians claim to base their ethics on his. Progressive/liberal Christians tend to make his ethics the core of their teaching, regardless of what their views are regarding who he was. Many non-Christians profess an admiration for the ethics of Jesus. So, what were the ethics of Jesus of Nazareth? Was there a Good Jesus and a Bad Jesus? This course will be an introduction to ethical theory by way of an examination of the ethics of Jesus as we understand them. Recommended book: *A Serious Way of Wondering* by Reynolds Price (ISBN 0743230094).

"At any rate, that is happiness," wrote Willa Cather in *My Antonia*, "to be dissolved into something complete and great." This is writing both deft and skillful. And over time, her works became both popular and critical successes. Thus she's an American writer worth studying. This course will begin with two of Cather's "prairie" novels: *O Pioneers* and *My Antonia*, 1913 and 1918 respectively. We will follow along in our study, then, with *The Professor's House*, 1925, and *Death Comes for the Archbishop*, 1927. What we will thus read over the weeks are four of the best pieces of fiction ever written by an American author.

LAN750 Advanced Latin: Authors of the Late Republic & Early Empire

Wednesday, 10:45 a.m.–12:15 p.m., Herring Center, Vick Seminar (HC102)

Advanced Latin will continue our readings in Latin from authors the students choose, currently featuring Caesar (Invasion of Britain), and Cicero (In Catilinam I). At the same time we are continuing our ongoing progress in the grammar based Latin Via Ovid, and its accompanying selections of his Metamorphoses. We are also looking at events of the decline of the Late Republic. By comparing the style of the three authors we are finding increased appreciation for all three as a result.

Required books: *Latin Via Ovid* by Normal Goldman (ISBN 9780814317327) & *Invasion of Britain* by W. Welch/C. G. Duffield, eds. (ISBN 9780865163348).

Ginny Anderson formerly taught Latin at Furman and currently teaches ten courses of Latin to adults over fifty online. She has taught at OLLI since 2005.

CPT347 Enhancing Your Online and Computer Skills

Wednesday, 10:45 a.m.–12:15 p.m., Herring Center, Computer Lab (HC104)

This is an intermediate computer course using Google Chrome, Gmail, and Google Drive to teach skills to enhance your internet browsing experience. This course is not suitable for beginners—students should already be familiar with using email, storing files, and searching web pages. We will cover some new areas for search techniques, some new settings and tips in gmail, talk about online security, and using the cloud for storage. This course will hopefully “take you to the next level” and will lead to using the

computer as one tool to maintain an independent lifestyle.

Dave Knox is a retired radiation therapy physicist and used computers for three-dimensional patient treatment planning.

ACM108 Good Grief! Even More Feisty Women

Wednesday, 10:45 a.m.–12:15 p.m., Herring Center, Campbell (HC004)

So many amazing women, so little time. Please join us again for lively discussions of the lives of famous and not so famous women. As before, subjects are chosen taken from the arts, the sciences, history, fiction, the Bible, and former and contemporary leaders. Often the most interesting arise through class suggestions and expertise. We will continue to explore (positive and negative) traits these women have in common, as well as those which make them unique. Additional focus this term will be on a more international approach.

HIS615 Manifest Destiny and Beyond I

Wednesday, 10:45 a.m.–12:15 p.m., Herring Center, Crabtree (HC110)

From 13 former English colonies clinging precariously to the Atlantic coastline, the newly minted U.S.A. would grow from just 5.3 million people at the beginning of the 19th Century to a diverse population of 76 million by its end. They would spread across a vast continent to inhabit a territory more than four times its original size. Just how and why did this unprecedented & amazing expansion occur? Join us in experiencing the little known but dramatic saga of this tumultuous age including the epic Louisiana Purchase, the Annexation of Texas, and bloody wars with England, Mexico and the Native Americans. This will be an honest and often disturbing view of an incredible era that forged this

nation and in so doing, changed the world. 1803–1853.

Bob Dwyer is a retired Wall Street executive and avid history buff. He has taught many courses in American history at OLLI since 2008.

PPG1350 Masters of Aging

Wednesday, 10:45 a.m.–12:15 p.m., North Village, Building J-100

Designed exclusively for graduates of the Dynamic Aging Program (DAP), this is the only class in the world where students can become masters of their own aging process. This class is intended to take subjects discussed in the DAP—such as the LIFE Model, mindfulness, self-awareness, personal autonomy, optimizing stress levels, quality of life, conscious relationships, meaning and purpose, brain fitness, resiliency, cognitive and emotional flexibility, meditation, living-on-the-edge, dynamic instability, dynamic systems, realistic optimism, exercise, nutrition, neuroplasticity and neurogenesis, positivity, intentionality, spirituality and aging, energy, and personal development—and explore their importance to the aging process in a broader and deeper manner than the DAP. We will bring our own lunch to class and meet in groups to discuss, share, and support one another after the class session. Groups will end at 1:15 p.m.

Dudley Tower, Ph.D., has been teaching successful aging, psychology, and personal growth courses at OLLI since 2004. He is the founder of the Dynamic Aging Institute. Sheila Garrick will assist with this course.

Policy 2012.1: OLLI (Classroom) Code of Conduct

Topics included within the OLLI curriculum may evoke emotional and visceral reactions to social, religious, political, and economic events, which inherently have elements of human tragedy, and during the course of time, may create discord. Comments shared within the class should be voiced in a professional manner conducive to promoting civil discourse and intellectual honesty.

Passionate dialogue is encouraged as long as opposing viewpoints are respected and the dignity of others is maintained. In the event that an issue arises which compromises this premise and is deemed detrimental to the learning environment (i.e., unwarranted personal attacks or unsolicited dialogue outside of the classroom environment), then the OLLI administration has the authority to remove a student or instructor from the class and/or the program.

RPH919 The Coming of the Messiah

Wednesday, 10:45 a.m.–12:15 p.m., Herring Center, Piper (HC111)

This course offers a high-level view of the period of history that preceded the life of Jesus Christ. This is sometimes referred to as the “inter-testamental period,” because it bridges the time between the Old Testament and the New Testament of the Bible. It was a period of turmoil and great national upheavals, and our study should give us confidence that God is also working in our time. We’ll explore some of the social, religious, and political background that influenced Jewish and Christian culture. The presentations will include lectures, discussion, and video/slide materials to help us understand what God was doing in that period of history.

Mike Andrews, retired telecom engineer, has an MDiv degree from Erskine Theological Seminary. He directs adult education at the Holland Park Church in Simpsonville.

PAH838 Quilting by Hand

Wednesday, 1–3 p.m., Herring Center, President’s Conference (HC103)

Simonne Lindemann has been quilting by hand for pleasure since 1978 and teaching since 2001.

ACM132 Creative Nonfiction: Telling True Stories

Wednesday, 1:30–3 p.m., Herring Center, Huff (HC105)

How do authors like Erik Larson write sweeping narratives about historical events? How do journalists like Jimmy Breslin or Rick Bragg turn hard cold facts into heart-rending stories? By examining the writings of those who do it best, we will learn how to create scenes and incorporate dialogue and literary details into the telling of true stories— techniques we can use in writing about anything from the benefits of artichokes to the adventures of an ancestor. This eight-week class will end on November 2.

Marcia Moston is an award-winning author and former newspaper columnist. She teaches memoir and creative nonfiction classes at writers conferences and community workshops.

LAN746 Intermediate Latin

Wednesday, 1:30–3 p.m., Herring Center, Vick Seminar (HC102)

Intermediate Latin continues our exciting experiment in learning Latin grammar through the book *Latin Via Ovid*, which combines Latin grammar with a graded reading of the fascinating myths of Ovid’s *Metamorphoses*. In the process

we’ll talk about the tenets of Classical Mythology and its influence on our own lives today. You’ll be amazed at how pervasive these ancient myths are in our advertising, art, literature, and everyday life. Required book: *Latin Via Ovid* by Normal Goldman (ISBN 9780814317327).

PPG1395 Understanding Retirement: What You Don't Already Know

Wednesday, 1:30–3 p.m., Herring Center, Campbell (HC004)

Do you know everything you need to know in order to age optimally? Probably not, so we are offering this abbreviated version of the Dynamic Aging Program (DAP) to impart the basics of how we can continue to improve our quality of life (QOL), develop our unique potential, and find new purpose as we age. The key to getting the most joy and life satisfaction during this new stage in life is to become more meaningfully engaged with your own development and the world around you, educated in the new science of aging and dynamic systems theory, and then become motivated to utilize this knowledge to optimize your own aging process. Approaching the aging process in this unconventional, but much healthier, manner will allow you to make improvements in your QOL for years to come. So, if you have thought about taking the DAP but don't have the time, this is the class to either start your retirement—or enhance the one you already have.

Dudley Tower, Ph.D., has been teaching successful aging, psychology, and personal growth courses at OLLI since 2004. He is the founder of the Dynamic Aging Institute. Sheila Garrick will assist with this course.

Frequently Asked Questions

Where is the office located? The OLLI Office is located in the Herring Center for Continuing Education on the main level. If you enter the building at the front entrance, you will be in Manly Lobby, and our offices will be on your left past the Marvin Book Nook.

What are the physical limitations for the bonus trips and events? Is there a dress code?

Many of our bonus trips and events require good physical capabilities, especially industrial tours that include extended walking and stairs. For all our tours “business casual” dress is the rule unless otherwise noted.

What is the wait list policy? If you sign up for a class that is full, you will be automatically put on a waiting list. We are limited by classroom sizes, time available to us, instructor comfort levels, and safety. If a class has a long waiting list, the Curriculum Committee works to secure the course for future terms. Please be patient if you are put on a waiting list; many times, we are able to open/move a class to handle the demand.

Can my spouse or a friend join me on a Bonus Trip or Event? Yes, but only after he/she joins OLLI for the annual \$50 membership fee and registers for the trip or event.

Do you have scholarships available? Yes. If you need financial assistance, please contact Nancy Kennedy at 864.294.2979.

How do I use the Hearing Loop? Members can check out headphone sets from the OLLI Office prior to their classes held in HC004, HC110 and HC111. These headphone sets will assist those without hearing aids.

Why do you not accept credit cards via mail or in the office? For Furman’s and your security we request that when paying for courses in the office or by mail that members use check or cash.

How do course packages work? Members can buy a 6, 9, or 15 course package to be used during the academic year (Fall, Winter, and Spring terms). Package holders can register the first day of registration each term. Package holders can upgrade to a larger package during Winter registration if necessary but not during Spring registration. A package cannot be shared between a couple.
