Authorization to Apply Title IV Funds to Non-Allowable Charges

“Allowable” charges for federal aid purposes are required fees such as tuition, residence halls and meal plans. Federal regulations allow Furman University to automatically deduct these charges from any federal aid that you receive.

“Non-allowable” charges are optional fees for non-educational items such as parking permits, parking tickets, bookstore charges, health services fees, and housing fines. These charges cannot automatically be deducted from your federal aid without your permission.

By signing below, you are authorizing Furman University to satisfy non-allowable charges with your federal financial aid.

Should you not give permission, you are responsible for all non-allowable charges appearing on the bill – financial aid funds will not be applied to these charges which may result in a balance due and an account hold which would prohibit you from registering and enrolling for future semesters, obtaining transcripts, and receiving your diploma.

Once this authorization is signed, it will remain in effect for all subsequent award years Furman. At any time (now or in future years), you may rescind all or a part of this authorization by submitting written notification to the Office of Financial Aid. Your cancellation of this authorization is not retroactive.
