TERM AND YEAR									

CREDIT BY EXAMINATION APPLICATION

Degree seeking students may earn credit for a course by demonstrating mastery by examination. You may not challenge an independent study, research course or any course for which you previously enrolled either for credit or as an auditor. A course challenged may not be enrolled on a pass-fail basis.

You must meet with the instructor to determine examination requirements prior to registering for the course challenge. You will be informed of the material to be covered on the exam but should expect no other assistance throughout the course. Students will not be permitted to attend class meetings of the course being challenged.

Course challenges should be enrolled during the normal registration period for the term. The examination must be completed before the end of the term in which it is registered. The grade earned for the exam will appear on your permanent academic record.
