Student Readiness for Remote Learning Survey

As we move online it will be helpful for me to learn some things about your remote learning experience and access. Please keep in mind that you do not have to disclose answers to these questions, but if you choose to do so, I can try to make informed adjustments.

1. Are you healthy? Is anyone close to you experiencing symptoms of illness?
2. Do you have your books or course materials (instruments, etc.) with you currently?
3. Have you learned remotely before (in an online class)? Please give a few details.
4. Will you be in a different time zone? If so, what time would our regularly-scheduled class occur in your “new” time zone?
5. Do you have reliable internet connectivity wherever you will be?
6. Does your laptop work, or are you trying to get by with a phone and/or tablet?
7. Do you have the ability to record yourself via audio and/or video?
8. Do you have earbuds or a headset for participating in video conferencing?
9. Do you have a camera on your phone, scanning app on your phone (TinyScanner), or access to a scanner?
10. Do you require digital accommodations to support your learning? If so, please specify.
11. If you are at home, do you have a quiet place to work?
12. Are you likely to be taking care of someone at home?

Please share any additional information you are comfortable disclosing about how you will learn remotely including housing, changes in other work demands, financial concerns, etc.
