INDIVIDUALIZED INSTRUCTION APPROVAL INTERNSHIPS, INDEPENDENT STUDY, AND RESEARCH

Internships, Independent Study, and Research opportunities bearing academic credit are available in many departments each term. Students should consult with the department of interest to determine their eligibility for this type of instruction and identify a faculty member to supervise the individualized instruction experience. Approval for completing this type of experience should be gained before the term in which the work will be done.

No more than 12 credits earned through internships, independent study, and research may contribute to the 128 credits required for the award of the bachelor's degree.

Content addressed in traditional classroom based instruction may not be offered as independent study. Traditional courses may be enrolled on a tutorial basis through arrangement with the offering department. Courses offered in this format will be registered with the same course number and title.
