

Download a File from Moodle

1. Login to your Moodle Course and locate the document you wish to download.
2. If you are on a Windows computer just click the link and the download will start.
3. If you are on a Macintosh computer, you will have to “Control Click” the link and choose to download the file.
 - a. On Mac computers, right click is known as secondary click or Control click. If your mouse, trackpad, or other input device doesn't include a right-click button or other way to perform a right click, just hold down the Control key on your keyboard while you click.

Information Regarding 2015 Guidelines and Evaluation Information.

******If you are on a Mac and the file you downloaded is a .HTM file you did not properly right click and download the file. Please follow the instructions above for right clicking and downloading files.**

4. Now that you have downloaded the file to your computer, you need to upload it to the FUCloud Storage.
5. Please view our document “[Working with Files in Citrix.](#)” **Beginning on page 5** “Transfer a File to the Virtual Environment.”
