

Building OneSouthCarolina Forum and Partners in Progress Award Celebration **Table Sponsor Opportunity**

ABOUT THE EVENT

The Building OneSouthCarolina Forum and the associated OneSouthCarolina Partners in Progress Award recognize a landmark collaborative achievement contributing significantly to social and economic progress in South Carolina. The event and award strive to recognize the many people, partners, and supporters behind successful organizations and initiatives in realms such as healthcare, education, conservation, economic mobility, economic development, and arts and culture.

The Building OneSC Forum is not only an awards celebration, but also serves as a learning event. Attendees gain insight into what led to the winning entity's success, as the community leaders who shepherded the initiative come together to talk in depth about how it was done, challenges encountered, and key takeaways from their work toward building one South Carolina. This event draws 200-300 of our state's top business, nonprofit, and community leaders who are eager to learn how to make positive change in their home communities.

ABOUT THE 2024 PARTNERS IN PROGRESS WINNER: TURN90

Working with men at the highest risk of re-arrest, Turn90 combines cognitive behavioral classes, supportive services, transitional work, and job placement to create an opportunity for success after prison where one doesn't currently exist. Participants are previously incarcerated men who have multiple barriers to reintegrating into their communities. Turn90 offers one-on-one supportive service sessions to address individual needs such as identification, transportation, and housing; intensive cognitive behavioral classes to help participants learn new patterns of thinking and equip them with problem solving skills; paid transitional work in Turn90's screen-printing social enterprise; and job placement with competitive wages, benefits, and opportunity for advancement upon graduation. Best of all, these front line services are delivered by credible messengers: former graduates of the Turn90 program.

SPONSORSHIP BENEFITS | \$1,000
