An update from
Modern Languages and Literatures
Spanish

Our department offers French, German, Italian, Spanish, Linguistics, Film Studies, Literature in Translation, Education, Humanities, and FYW courses that can count toward a variety of majors and interdisciplinary minors. Through the development of competency in other languages and cultures, our students acquire global fluency and practice invaluable transferable skills, such as presentational and interpersonal communication; reading with a purpose; analysis of how language creates meaning; the formation, articulation and defense of a thesis; reflection; extemporaneous speech and debate; and collaboration with faculty, peers, and community partners.

You will also have the opportunity to live in our Spanish House with a native speaker who facilitates activities for the House.

A Four-year Pathway

“For me, studying Spanish at Furman has been a transformational experience that has shaped me both as a student and as a person. My Spanish studies have provided me with avenues to meaningfully engage with both the Greenville community and the greater Spanish-speaking world: to volunteer with Neighborhood Focus in Berea, study in Madrid, and collaborate on a year-long translation project that involved travels in Mexico City. I cannot express the amount of gratitude that I feel for both the mentorship that I have received from Spanish faculty, as well as the classroom and global experiences I have gained through my Spanish curriculum.” **Maria Bartlett**, '18
